2nd European Workshop
on Seabuckthorn –
EuroWorkS 2012

Seabuckthorn – a crop with
many faces

October 18 – 19, 2012

Vilnius, Lithuania

Organiser

The German Society for
Seabuckthorn and Wild Fruits,

Berlin

The Lithuanian Society of
Seabuckthorn Growers, Vilnius

2nd European Workshop on Seabuckthorn - *EuroWorkS*

Seabuckthorn became one of the promising crops in changing agriculture in Europe within the last years. The great benefit of this plant-nitrogen fixation, use for human nutrition, preparation of medicines, production of cosmetics, you was in an amount exceeding and last but not least environmental protection led to a wide interest in this wonderful plant. Nowadays international scientific and commercial community in Europe developed vigorously and resulting there is great demand of exchange of scientific knowledge. The last international Seabuckthorn Association meetings in China and Russia showed a wide spread development in science and technology.

Starting in 2010 the German Seabuckthorn Association offered the opportunity to have a powerful exchange of knowledge and co-operation for all who deal with Seabuckthorn by starting the series of EuroWorkS meetings.

Because of a still growing number of persons engaged in Seabuckthorn - agriculture as well as science – and quickly developing interests we decided to circulate the annual meeting in Europe.

So we're happy to offer the 2nd International European meeting on Seabuckthorn – EuroWorkS 2012 - in Vilnius the capital of Lithuania.

It is our aim to continue the European tradition of conferences on Seabuckthorn being a perfect intermediate and complement to the ISA - conferences. Furthermore, it is the expressed goal of the organizers to promote seabuckthorn and to develop international scientific as well as commercial co-operation.

Objectives of the Conference

- to assess the current status of seabuckthorn research
- to propagate new knowledge about breeding and planting
- to show new technologies for growing and processing, especially under European cultivation conditions
- to develop long term strategies in scientific as well as in commercial co-operation

Main Themes of the meeting

- varieties and growing of seabuckthorn
- research on seabuckthorn
- new technologies for organic seabuckthorn products
- European Seabuckthorn quality
- international co-operation on seabuckthorn

We, the members of the German and Lithuanian Societies for Seabuckthorn are proud to organise the Vilnius EuroWorkS meeting 2012. I would like to invite you and will highly appreciate your decision to join our event.

PD Dr. Joerg-Thomas Moersel
President of the German Society
for Seabuckthorn and Wild Fruits

Dr. Gediminas Radzevicius
President of the Lithuanian
Seabuckthorn Society

Deadline for presentations

July 1st 2012

Abstracts containing about 250 words should be added to your application and sent in before July 1st 2012.

We strongly recommend sending in your abstract by e-mail. Please, use:

euroWorkS@sanddorn.net
www.sanddorn.net/EuroWorkS.html

Deadline of pre-registration

August 31st 2012

Please, use the online form or e-mail us.

Second circular

Second circular will be mailed during July 2012. The homepage will be updated continuously.

Accommodation and venue

Further information will be given with the 2nd circular. All information will be available via Internet as well. We recommend visiting www.citygate.lt

www.sanddorn.net/EuroWorkS.html

During the meeting social events will be provided. A dinner party in a traditional place will be organised. After conference tours to interesting places, so the historical capital of Lithuania Trakai or Seabuckthorn businesses are planned.

Anyway, feel free to send in further proposals.
