

# 2<sup>nd</sup> European Workshop on Seabuckthorn

## EuroWorkS

Vilnius, Lithuania, 18. - 19. October 2012

Two years ago European members of the International Seabuckthorn Association (ISA) decided to held a local conference. This was done to fill the gap between ISA conferences and to strengthen the European Seabuckthorn Society. Today we feel that the interest is growing to share results and opinions and decided to organize a European Workshop on Seabuckthorn as a following series of meetings. Agreeing to this, the German and Lithuanian Seabuckthorn Association decided to organize the meeting in Vilnius together.

It is the expressed goal of the workshop to promote Seabuckthorn and to develop international scientific and commercial co-operation

Objectives of the workshop

- to assess the current status of Seabuckthorn research
- to propagate new knowledge about breeding and planting
- to show new technologies for growing and processing, especially under European cultivation conditions
- to develop long term strategies in scientific as well as in commercial co-operation.

Main Themes of the workshop

- varieties and growing of Seabuckthorn
- research on Seabuckthorn
- new technologies for organic Seabuckthorn products
- European Seabuckthorn quality
- international co-operation on Seabuckthorn

I would like to invite you to join our workshop in Vilnius EuroWorkS 2012. I hope we will have a successful meeting.

Jörg-Thomas Mörsel  
Vice President of ISA board

Dr. Gediminas Radzevičius  
President of the Lithuanian Seabuckthorn Society

## Committees

- Scientific Committee

G. Radzevičius, Lithuania
