

It is our goal to continue with the international tradition of conferences on seabuckthorn, to promote seabuckthorn as a powerful plant and to develop scientific and commercial co-operation.

Objectives of the Conference:

- > to assess the current status of seabuckthorn research
- > to improve knowledge on SBT processing
- > to show new technologies for growing and processing
- > to propagate new knowledge about breeding and planting
- > to demonstrate the health benefits of Seabuckthorn and its commercial use

Main Themes of the meeting will be:

- > Research on Seabuckthorn
- > Medical and health applications of Seabuckthorn
- > Technology of Seabuckthorn cultivation, harvest and processing
- > Varieties and growing of Seabuckthorn
- > New technologies for organic products from Seabuckthorn
- > Quality of Seabuckthorn products
- > International co-operation on Seabuckthorn

We would like to invite you to participate and will highly appreciate your decision to join our event.

PD Dr. Joerg-Thomas Moersel
President of the German Society
for Seabuckthorn and Wild Fruits
vice President of ISA)

Pre-Registration Form
6th Conference of the
International Seabuckthorn Association
ISA 2013

October 14th – 17th 2013, Potsdam

Name _____

Surname _____

Academic title _____

Address _____

FAX _____ Phone _____

e-mail _____@_____

I intend to present a paper - a poster

Title of the paper / poster _____

I would like to receive more information.

Please, send me the 2nd circular

Expected date of arrival..... 2013

Expected date of departure..... 2013

I will be accompanied by _____ / alone

Date _____

Signature _____

We strongly recommend registering online via

ISA 2013
THE 6th CONFERENCE
of the
INTERNATIONAL SEABUCKTHORN
ASSOCIATION
Potsdam 2013

**SBT – a fresh look at
technology, health and environment**

October 14th – 17th , 2013
Potsdam, Germany

A conference of the
International Seabuckthorn Association,
Beijing

Organised by
German Society for Seabuckthorn
and Wild Fruits, Berlin

During the last years seabuckthorn became one of the most promising crops among the worlds agriculture. The great benefits of this plant – such as nitrogen fixation, use for human nutrition, preparation of medicines, production of cos-metics and, last but not least, environmental protection led to a wide interest in this powerful plant.

Ten years ago the 1st ISA conference took place in Berlin. It has been followed by a large number of successful meetings all around the world. Nowadays, it is very obvious that those long lasting activities of seabuckthorn pioneers resulted in a well accepted and important international meeting, the ISA conference.

The international scientific and commercial community is growing vigorously and resulting from this there is a huge inter-est in exchange of scientific knowledge. During the meetings of the International Seabuckthorn Association in Russia 2009 and China 2011 an impressing development in science and technology became obvious.

Due to a still growing number of persons engaged in seabuckthorn – based on agriculture, commercial aspects, as well as on the scientific point of view – the ISA board decided to organise the 2013 meeting in Potsdam, Germany, under the main theme:

“Seabuckthorn – a fresh look at
technology, health and environment”.

The German Society for Seabuckthorn and Wild Fruits, on behalf of the International Seabuckthorn Association, proudly invites you to take part in the 6th Meeting of the ISA.

We, the members of the International Seabuckthorn Association and the German Society for Seabuckthorn and Wild Fruits, are proud to organize the ISA2013 meeting.

Prof. Tai Yuanlin
President of the International
Seabuckthorn Association

Important dates and deadlines

Deadline for applications of presentations
April 30th 2013

Deadline for abstract submission
Mai 31st 2013

Abstracts of about 200 – 250 words should be received by the Programm committee not later than May 31st. We strongly recommend to send abstracts by e-mail (isa2013@sanddorn.net)

Deadline of pre-registration
June 30th 2013

Second circular
Will be published in Mai 2013.

Final program
Will be ready before August 2013.

Further information

If you need information, assistance or have queries – contact our conference office. The organising secretary, Ms Thies will assist you.
