

# 1<sup>st</sup> European Workshop on Seabuckthorn

## EuroWorkS

Potsdam, Germany, 2. - 3. December 2010

Nearly ten years ago International Seabuckthorn Association (ISA) has been founded in Delhi. As one of the most important results 5 conferences has been held. We feel that the interest to share results and opinions is growing and decided to organise a European Workshop on Seabuckthorn.

During the last decades great efforts have been made to promote and develop seabuckthorn. The great benefits of this plant - nitrogen fixation, multifarious use for human nutrition, medicine, cosmetics, animal feed, environmental protection - have prompted a rich flood of scientific publications and practical properties.

It is the expressed goal of the workshop to promote seabuckthorn and to develop international scientific and commercial co-operation

#### Objectives of the workshop

- to assess the current status of seabuckthorn research in Europe
- to propagate new knowledge about medical effects of seabuckthorn
- to show new technologies for high quality seabuckthorn products
- to develop long term strategies and scientific, as well as commercial co-operation using seabuckthorn

#### Main Themes of the workshop

- medical and pharmaceutical use of seabuckthorn
- bioactive substances in seabuckthorn
- new technologies for seabuckthorn processing
- international co-operation on seabuckthorn

I would like to invite you to join our workshop in Potsdam EuroWork5 2010. I hope we will have a successful meeting.

Jörg-Thomas Mörsel  
Vice President of ISA board
